RE: Canaan Valley Fire District, Tucker County, WV

Dear Chief Green,

Thank you for your e-mail asking about the current Public Protection Classification for Canaan Valley Fire District, WV.

The current PPC for your fire district is Class 6/9. Class 6 applies to properties within 1000 feet of an approved dry hydrant or a fire hydrant, within 5 road miles of a responding fire station and with a needed fire flow of 3500 GPM or less. Class 9 applies to properties beyond 1000 feet from a fire hydrant but within 5 road miles of a responding fire station. The public and private fire suppression capability for properties with a needed fire flow greater than 3500 GPM is individually evaluated and may vary from the community. All others are Class 10.

If you have any questions, feel free to contact me. I would be more than happy to assist you any way I can.

Sincerely yours,

Kevin Gimeno
